Mirzaganj, Giridih, Jharkhand 815315

Phone: +91 6204612247 — Email: aanchal2115@gmail.com

LinkedIn: linkedin.com/in/aanchal-kumari-226b00283 — GitHub: github.com/Aanchal7915

Summary

Aspiring Software Engineer skilled in **Full-Stack Development, REST API design, authentication systems, and scalable backend architectures**. Experienced in building production-grade apps using **React, Node.js, Express.js, MongoDB**, and modern UI frameworks. Strong fundamentals in **DSA, OS, DBMS, System Design**, and problem-solving with 150+ coding questions solved across platforms.

Education

Baba Mastnath University

B.Tech, Computer Science & Engineering — 91%

2022 – 2026

Rohtak, India

RSP College Jharia

Senior Secondary (Science) — 63%

2019 – 2021

Dhanbad, India

K.D International School

Secondary Education — 80%

2018 – 2019

Rajdhanwar, India

Technical Skills

- **Programming Languages:** JavaScript, Python, C, C++, SQL
- **Web Development:** React.js, Tailwind CSS, Node.js, Express.js
- **Databases:** MongoDB, SQLite, MySQL (basic)
- **Tools:** Git, GitHub, VS Code, Postman, Jupyter Notebook
- **Core CS Areas:** Data Structures & Algorithms, System Design, OOPS, OS, DBMS

Projects

Nxt Trendz — E-Commerce Web App

React.js • JWT Auth • Responsive UI [GitHub]

- Developed a production-ready e-commerce platform with browsing, cart, checkout, and protected user routes.
- Integrated secure JWT authentication with persisted sessions, ensuring **100% protected route coverage**.
- Optimized rendering using Context API and Router improvements, reducing page transition delay by **30%**.
- Achieved **99% Lighthouse accessibility score** through responsive layouts and semantic components.

Twitter Backend Clone

Node.js • Express • SQLite [GitHub]

- Designed backend architecture for user management, follows, tweets, likes, replies, and feed generation.
- Improved query performance by **35%** using relational schema normalization and index-based lookups.
- Implemented input validation, error-handling middleware, authentication, and robust REST API patterns.

Experience

Full Stack Developer

June 2025 – Present

Avani Enterprises

Remote

- Built dynamic interfaces using React + Tailwind, decreasing load time by **30%** and improving session duration by **20%**.
- Developed scalable REST APIs (Node.js + MongoDB) handling **>10,000** daily requests with **25% faster response time**.
- Implemented JWT auth and role-based access, improving backend security and eliminating unauthorized access cases.
- Integrated real-time data sync and API pipelines, reducing manual refreshes by **50%**.

Full Stack Developer Intern

June 2024 – July 2024

Bharat Intern

Remote

- Created user-friendly, validated form systems reducing input errors by **20%**.
- Developed a Money Tracker App with optimized state management improving UI responsiveness by **25%**.
- Delivered full-stack modules with secure login, CRUD APIs, and database integrations.

Achievements

- Solved **150+ problems** across LeetCode (SQL + DSA) and GeeksforGeeks.
- Received awards in essay writing and creative drawing competitions.
- Certificate of completion — Flipkart Runway Season 4.
