Education

BABA MASTNATH UNIVERSITY,ROHTAK

Bachelor of Technology in Computer Science & Engineering

June 2022 – July 2026

Percentage - 91

RSP COLLEGE JHARIA,DHANBAD

Senior Secondary(12th BOARD),Science Stream

April 2019 – May 2021

Percentage - 63

K.D INTERNATIONAL SCHOOL,RAJDHANWAR

Secondary(10th grade)

April 2018 – May 2019

percentage - 80

Relevant Coursework

- Data Structures & Algorithms
- Object Oriented Programming
- Operating System
- Database Management System

Experience

Bharat Intern

June 2024 - July 2024

Full Stack Developer Intern

Virtual

- **Structured Web Form Creation:** Developed a project which demonstrates my ability to build-friendly and structured web forms,a foundational skill in web development.
- **Financial Tracking Application:** This project reflects my ability to design and develop an application solving practical problems, showcasing problem-solving and project design skills.
- **End-to-End Development:** Frontend and Backend Integration,displaying my understanding of full-stack development principles.

Avani Enterprises

16th June 2025 - 16th July 2025

Full Stack Developer Intern

Remote

- **Frontend Development:** DeveBuilt responsive web interfaces using React.js and Tailwind CSS. Implement React Router For smooth navigation and ensured mobile-friendly,user-centric UI designs.
- **Backend & API Integration:** Developed an integrated RESTful APIs using Node.js ,Express.js, and Mongodb .Handled authentication(JWT), data operations(CRUD), and connected APIs with the frontend for dynamic functionality.
- **Backend & API Integration:** DevelopeUsed Git and Github for version control and collaborative coding.Actively tested APIs using Postman,debugged UI/backend issues, and followed best practices.

Projects

-**Twitter API** | *NodeJS, ExpressJS,Sqlite* | [Project link](#)

Feb 2024

- Created a robust twitter-like backend application utilizing Node.js and Express.js, with SQLite as the database.
- Implemented secure user authentication and authorization mechanisms to ensure data integrity and user privacy.
- Structured and managed relational database schemas for users, tweets, followers, replies, and likes, facilitating efficient data retrieval and manipulation.
- Ensured comprehensive input validation and error handling to maintain API reliability and security.

Nxt Trendz | *ReactJS, React context, API Integration* | [Project link](#)

July 2024

- Integrated an e-commerce web application inspired by platforms like Amazon and Flipkart, using React.js, JavaScript, and CSS.
- Organized user authentication and authorization with JWT tokens, ensuring secure access to various features.
- Designed and developed multiple pages and routes, including Login, Products, Product Details, and Cart, utilizing React Router components such as Route, Switch, and Link.
- The project demonstrates proficiency in front-end development, state management, routing, and connection of secure authentication mechanisms in a React-based application.

Technical Skills

Languages: C, C++, Python, SQL, HTML, CSS, Javascript

Developer Tools: VS Code, Git, Github, Jupyter Notebook

Technologies/Frameworks: ReactJS, Node.js, ExpressJS,Tailwind, MongoDB,SQLite

Development Areas: Full Stack Development, API Integration, Authentication(JWT), Responsive Design
